While human ingenuity may devise various inventions to the same ends, it will never devise anything more beautiful, nor more simple, nor more to the purpose than nature does, because in her inventions nothing is lacking and nothing is superfluous."

“I believe man will fly and I base this assumption on the fact that God has blessed us with minds that are capable of imagining it. Anything that can be dreamt of will eventually be built."

“Having wandered some distance among gloomy rocks, I came to the entrance of a great cavern... Two contrary emotions arose in me: fear and desire—fear of the threatening dark cavern, desire to see whether there were any marvelous things in it.”

**SUNDAY CIRCLES**

Children begin their learning adventures in the registration area in the youth foyer, **10:15-11AM on SUNDAYS**, then move to their classes, to be reunited with their parents in the Great Hall in time for the closing song. Some Sundays we offer special theme workshops for the kids, too. Age-appropriate prayer/treatment opens all the classes, and for each class there is age-appropriate discussion of the monthly theme and creative projects to enhance the learning. Just after noon all the teachers and children gather in the reception area of the Learning Center for our closing prayer circle. Then the teachers bring the children to you in the Great Hall. Please remember that no youth are to roam the Center for our closing prayer circle.

Our coordinating Sunday minister is **Marsha Lehman** at xlr8coach@aol.com, assisted by practitioners **Linda Clesson** and **Marissa Mija**. Our youth minister and chaplain is **Debra Morwood** at debramorwood@sbcglobal.net.

**Teach Our Children Well...**

We teach our children that God is Life—the Life within each of them and in all Creation—that all people are children of the One God, and therefore, are all brothers and sisters. • We teach that God is all-inclusive and we are each created in the image of God—Good. • We teach that God is Love, and we honor God-in-all through love, not fear. • We teach that sin is simply a mistake and when we make mistakes, we are punished by them, not by God. • We teach that God is Spirit and present everywhere, that this Spirit is within us and speaks to us through our minds when we are willing to listen. • We teach that there are spiritual laws that must be understood and followed, just as we follow human laws. • We teach that religion is something to be used every day, not just on Sundays. • We teach that Religious Science is a religion that can be used at home, at school and at play; that since God is within us, heaven is also within us, that is we learn to live our lives in harmony with God’s Law, we live in heaven now. • We teach that keeping the mind focused on good causes a richer experience of life. • We teach that God is truth and beauty, peace and harmony; that as we grow to be more like God, our lives will be filled with health, happiness and success; • We teach that nothing is too wonderful to happen, nothing is too good to be true: everything is possible to God through me and you!

**WHAT WE DO**

The CLC Children’s and Youth Services Department is devoted to celebrating the spiritual development of each child we teach. All age groups are involved in various activities, workshops, and special projects incorporating the teachings of Science of Mind. We strive to create an atmosphere of love and kindness in our words and actions toward each other and to recognize and honor the diversity of every person.

- **Toddlers** (18 mos. to age 3) are lovingly cared for by our toddler teachers. In their very artistically designed Discovery Room, the children are encouraged to interact and experience their world as only a toddler can. They are offered games, toys, books and other age-appropriate activities in a safe, secure and loving environment.

- **4-6 age group.** Beginning around the age of 4, our toddlers are moved to the Ingenuity Room. This group begins to learn the basics of treatment and the value of giving a smile and a kind word. Our creative teachers provide age-appropriate instruction and activities.

- **7-12 age group.** are in the Quimby Room, regularly practicing the steps of Treatment presented in a manner appropriate to their age group. The teachers provide learning tools, creative projects, workshops and other teaching methods to engage each child’s learning of the principles of Science of Mind.

- **13-17 age group** meets on the second floor of the Learning Center in the Hopkins classroom. They are engaged in special projects, workshops, have guest speakers and are involved in several volunteer service endeavors at CLC. The teachers working with this group encourage their talents, keep them engaged in learning Science of Mind principles and we throw in some fun along the way!
